**“The Information Contained In This
Free Report Has Changed Thousands
Of Lives And Has Led To The Growth
Of Colossal Organizations...Yours Is Next...!!”**

Warning!

I have to be honest here...brutally honest. For some of you this report may scare you to death. The truth about this industry is scary...deathly scary. It's **SO** simple to grow a huge organization in this industry, but 97% of networkers fail and fail miserably because of a lack of information...**NOT** due to a lack of effort. In this report I'm going to share with you a few vital secrets that are absolutely critical when growing a business. Your upline **DOES NOT** want you to have your paws on this life changing information (this will make more sense later in this report). Don't take this information and simply put it up on the bookshelf next to all your training tapes and CD's that never worked for you...that would be the **WORST** decision you've ever made in your entire home based business career.

“Introducing The Only Tried, Tested And Proven Information In The World Of Network Marketing That Is Guaranteed In Writing To Have You Making An Additional \$50,000.00 Per Year...”

So what made you request this free report? I'm sure you have several reasons. If you're anything like me you're a fairly skeptical person. Hopefully, you requested this report for some or perhaps all of the following very honest reasons:

1. Let's just lay it out on the table here...you don't believe that adding more than 2-3 reps per week into your business is possible let alone 20-30 a week.
2. You've been trying every technique known to mankind in the MLM industry and it just flat out isn't working for you.
3. You ran out of your warm market months or even years ago and you're looking for a system that will create more prospects that **ALREADY** have in interest in your product or service before you even speak with them.
4. You've spent more money on the latest technology, systems, quadruple opt in leads, auto responders and tapes in the last 6 months than you care to admit (and I don't blame you...I've been here too).
5. Your spouse is making you sleep on the sofa until you start making money because you've spent so much on your floundering businesses.
6. I'll be so blunt here as to say maybe you're sole purpose of requesting this information is to prove me and my system wrong (I can't blame you...I've made some pretty bold statements).

I must start off by saying that I can't blame you for being skeptical. If you're like me you've heard it all. You've been exposed to more MLM training manuals, CD's and tapes than you care to admit to. You've heard all the hype and wizardry out there and all of those people that tell you “This is the way to grow a business”.

If you had a dollar every time you heard that, you wouldn't be reading this report...you'd be sipping on a Mai Tai in the Bahamas. If a stranger told me that adding 20-30 people per week (or even more) into their business was possible and even “old hat” I probably wouldn't believe them either. I'm here to tell you that not only is it possible, but I have found a proven system that will walk you through this process every step of the way.

In this report I will share with you some extremely powerful secrets that are tightly held in this industry and share some of the most vital ingredients that one must thoroughly understand when growing an organization...a huge organization. I'm sharing this information because I'm truly sick and tired of the “half truths”, misleading statements and all the things that are taught and promoted in the network marketing industry that are **NOT** designed to help you grow your business. They were never designed to help you. I'll chat a bit more about that in a bit. You first must understand that...

“What Are You Doing?” & “How Do I Join You In Business?”

Dear Friend And Network Marketer,

Hi! I’m Brad Mirtes. My family and I reside in Nashville Tennessee. I’m a father of 4 great boys, a network marketing consultant and a husband to the most beautiful woman on the face of the planet, Tonya.

I have to start off by saying that I’ve walked the trail of tears in the MLM industry and I’ve had more blunders than I can count on both hands and feet. I’ve heard it all, tried it all and spent more money trying the “latest and greatest” and could never quite seem to make it happen. I have to tell you that everything I was being taught was actually counter productive.

My upline would tell me to make 3-way calls, bring friends to meetings, create a “warm list” of my friends and family, hand out massive quantities of business cards, fliers, brochures, etc. You name it, I did it...I was a huge “cash cow” for the companies that provided all the “must have business tools”.

There was a time where I compiled a list of 300 people in my warm market. The idea was to hand out or mail out cassette tapes or DVDs or “Info Pacs” to all these people and then follow up with them to hopefully sign them up into my “deal”. It didn’t work! I was constantly in and out of networking companies always thinking there was something wrong with them. I convinced myself it was the comp plan, the product, the “whatever” that was failing.

The most difficult realization for me was when the light finally came on that it was me who was failing and failing miserably. It took years of constantly pounding my head against a brick wall before I finally put the pieces together. I realized that everything I was doing was essentially benefiting my upline, but wasn’t necessarily doing anything productive for me and MY business.

To be blunt, I was failing and failing miserably. After years of struggling and using tools and marketing techniques that were never designed for my benefit, I finally gathered up the pieces that make network-marketers successful. I now have more secrets, tips and goodies

that give me the knowledge and tools to add more reps in a week than most networkers add in a year!

IMPORTANT

If you're like me you're not much of a reader. I'd much rather be doing something more enjoyable like playing the piano or watching a great movie with my wife or bouncing on the trampoline with my boys or target practicing with our pellet guns.

Here's the thing...this report changes lives and is so important that you just have to read it. I'm not trying to sound like that second grade math teacher that you dreaded, but this is vital and could be the best business decision you'll ever make for yourself and your family.

Grab a cup of your favorite drink and some of grandma's special cherry pie that you hid from the kids (you know that special "corner" of the fridge that's hidden way in the bottom where no one ever looks) and make this your absolute priority and give it your full attention. This report can literally put thousands...tens of thousands of dollars into your pocket. That's how important this is.

"I Can Show Anyone How To Make It Big In MLM...So Big That Your Friends And Family Will Be Begging You To Put Them In Your Business"

You see, I'm not out to brag or toot my horn, but I truly have a love and passion for helping others. Nothing excites me more than watching someone else make it big in this industry - real big. Just by using the information contained in this report, I've witnessed others grow huge enterprises and create mammoth incomes.

I've discovered a system that is revolutionizing the MLM industry. These "goodies" that I'm about to share with you are so important that you may have to read them 3 or even 4 times to fully absorb the information and get the exact points that I'm making. Settle in, buckle up, sip on your drink, clear the mind of clutter, turn your cell phone off and enjoy this journey...

"Stop Doing What You're Doing If You Truly Want To Stop Getting What You've Been Getting (a sign of insanity)..."

This leads me to my first pearl...

Secret #1 - If something hasn't worked for you in the past...stop doing it?

A sign of insanity is doing something over and over and expecting a different result. This secret is vital to your success. If something isn't working for you why waste your time and hard earned money trying to "force" something to work. If you're placing ads in newspapers or holding house parties after Sunday church and it's not generating the results you were hoping for or not generating results period...STOP DOING IT! I've seen so many colleagues and close associates essentially put themselves out of business by not following this simple rule.

Don't reinvent the wheel and think that it will work if you just keep trying. This isn't to say that if something is working, but to a limited degree, it can't be improved upon and attempted again.

Look, here's the thing, so many people devise a new "system" or "fool proof" method to grow a business and when it doesn't generate results they feel compelled to keep doing the same thing, thinking that it will work and create different results the next time. Let me save you energy, headaches and dollars by saying "STOP". It's almost like we take it personally that our plan didn't work out as planned.

There's nothing wrong with being creative and trying different techniques...in fact in business you'll fail if you're not thinking outside of the box. The point I'm making is that if something doesn't work...*STOP* doing it and move on to more productive things. Don't take it personally, and don't take it to heart. Just get back out there on the front line with something new... preferably something **PROVEN** to work (like what I'm about to share with you).

**“Once You Discover The Proper Marketing Techniques
And Principles...You'll Discover That Adding 20-30
People Per Week Into Your Business Is Child's Play...”**

I know that adding 20-30 people per week into your business sounds like a gigantic number. Maybe you think that this isn't possible. I can understand your skepticism and I felt the same way before I found a system that is doing exactly that. It probably doesn't seem realistic because you've never done it. I'm not trying to be rude here, but when I show you exactly how to make that happen you'll set much higher targets for yourself and your business than this.

Honestly, adding 20-30 people into your business can be done in one or two days with the **PROPER** knowledge. For your business to survive it's strictly a numbers game. The more associates that are enrolled the more product is sold...this is how network marketing companies stay in business. Companies are enrolling hundreds even thousands of new reps **EVERY SINGLE WEEK, DAY AND SOME...EVERY SINGLE HOUR!**

With most companies the top reps enroll about 90% of the new associates coming into that business! This sounds incredible, but it's the absolute truth. Now the question simply becomes "How do I become one of those top reps?" This leads to perhaps the most important thing that anyone in this industry will ever share with you...

**“To Be Successful In ANY Network Marketing Company You Must
Think Of Yourself As The Owner Of Your Business...Not Like An
Employee Or A 'Gopher' Growing Your Upline's Organization”**

Secret #2 - You must treat YOUR business as YOUR business. Don't think of yourself as a gopher or someone simply helping your upline grow their business.

This secret is paramount to your success. Most of us (about 97%) enroll into a company only to ultimately become a gopher for our upline. Here's the truth...the average network marketer in this country enrolls 3.6 people into their business before they either drop out of networking or move on to the next "latest and greatest" deal (again, because they haven't learned the "truth" yet and they still think it's the company that's failing...not them).

With these numbers it's no surprise that the failure rate in this industry is as high as it is. It's tough, using systems and teachings that were never designed for your success to make money. I truly believe that this is the greatest industry on the face of the planet for true, long-term residual income. There's nothing that even compares to network marketing! It's unfortunate, but the techniques that are taught in this industry aren't designed to help you...the small guy. They're designed to make the company succeed.

Here's the thing. Companies know that you'll bring in a couple of associates...your friends and family and they'll either stay in the business or drop off. Whoever, whatever...they really don't care to be frank with you. There is no in between here.

For them, it's strictly a numbers game...if thousands of associates are out there doing the same thing, your company is immensely successful, but you're not. The few associates you have in your organization aren't even covering the expense of your monthly product costs.

Treat your business as if you are the CEO and President of that enterprise...cause guess what...**YOU ARE!** You have complete control over what takes place in YOUR business and you are responsible for everything in your enterprise...the good, the bad and the ugly. In other words...you run the ship and you must stop doing techniques that edify your upline, but don't position YOU as a leader in this terrific industry.

Attention:

If you're doing 3-way calls to your upline...STOP! Think about this for just a moment. You have a prospect that has a few questions about the compensation plan and you tell him/her to hang on a second while you get Ralph (your upline) on the phone. Who are you working for at this point and who becomes the expert in their field. You got it...Ralph...He is now the expert and you just acted as the cog in the wheel to help grow your upline's organization, but what have you done for your credibility as a business owner. You COMPLETELY destroyed it.

Ok...I'm back. Sometimes I get carried away on tangents, but that was an important goodie.

My point is, if you own a Blimpie's franchise and someone came in and asked what the bread options were, you wouldn't call the corporate office and ask them. You would know the answer or you would look like you had no business being in that line of work...network marketing is NO different. Treat your business and organization like you are the owner because **YOU ARE THE OWNER.**

Does This Sound Familiar???

You have a prospect that has a lot of good questions...buying questions. You're pumped and extremely excited. In fact, so excited you can hardly see straight. You haven't had a prospect this excited in months. Your mind is spinning and you know the knowledge and answers to his questions, but they're not registering. You decide that you'll call your upline Bob. Bob picks up his phone and you can tell he had a long day by the tone of his voice. You introduce Billy (your prospect) and yourself and explain that Billy has a few questions. Bob hastily answers his questions because he's more concerned about removing his work boots and getting some food into his belly. You end the call with Bob and quickly realize that you could have done a much better job answering the questions yourself. Not only did you lose credibility, but Billy (your prospect) won't even pick up his phone when you call.

Don't feel bad...this has happened to all of us, but after I show you a few techniques I can **GUARANTEE** that this scenario will **NEVER** happen to you again.

The point of all this is that when you do a 3-way call it only establishes credibility for your upline...it does **NOTHING** productive for you and **YOUR** business.

At this point you're probably wondering, "Who are you and why should I even pay attention to what you're talking about?" Look, the point of me writing this report is not to "toot" my own horn, but it's extremely important for you to know why I'm an expert in this field and how I've mastered so many different marketing techniques. So let me tell you a little bit more about me.

I've been in Network Marketing for several years. I got started for the same reason many people do. I wanted a better way of life for me and my family than ANY job could ever offer. My goal was to replace my income and have the option to walk away.

After several years of jumping from one MLM company to the next and using the same unsuccessful marketing techniques each time I realized that I needed to change what I was doing if I wanted to get a different result. Along the way I realized that I have a very strong desire to succeed. I guess you can say that my "WHY" is very big. Is yours? It must be or you wouldn't have spent the time to read up to this point. I respect your desire to succeed.

I truly believe this country offers the greatest chance for the normal, every day person like you and me to make it big...real big if we truly want success bad enough. The techniques and methods that I'm sharing with you have been tried, tested and proven over the past several years to be immensely successful if you're truly seeking success. It can't be just some sort of "pipe dream"...you need to truly feel it in your blood.

Sometimes I have a hard time sleeping because I'm always consuming myself with different brainstorming and masterminds to take things to higher levels...this is the commitment that one must have within himself to truthfully find those higher levels of accomplishment.

You can grow any business to levels of incomprehension if you know marketing inside and out...

It Doesn't Matter What You're Product Or Service Is As Long As You Are A Master Of Marketing!

This brings me to a secret that I'm going to share with you that is vital for your success...as a matter of fact, you might not make it if you don't master this one...

Secret #3 - If you truly seek to make it big...real big, you must edify and position yourself as a leader...this is truly how EVERY SINGLE big wig makes it.

Establishing yourself as an expert is a pivotal point in achieving success.

Look at Microsoft, IBM, and McDonald's...the list goes on and on. These companies have

established themselves as an expert in their industry. Whether it be computer related items, cheeseburgers, or whatever you happen to be marketing (it really doesn't matter), but for you to make it and make it BIG you need the system, the knowledge and the "know-how" that will have prospects begging (literally) to join you in business. Using positioning tactics that attract prospects to you is absolutely paramount in order to achieve the success that you're seeking. I don't mean to be blunt here, but let's look at the techniques that this industry teaches us; 3-way calling, the 3-foot rule, approaching your friends and family, etc. If you've tried these (which I'm sure you have...it's all part of "boot camp") you know exactly what I'm talking about.

These methods aren't designed for your success...again, to the network marketing / MLM company, it's a complete numbers game and you're just helping them meet those numbers, but you're not doing anything for yourself and your organization.

If you've always wondered about the people on the stage and those who get the big fat checks with lots of zeros...it's because they've used positioning tactics to edify themselves as a leader in this industry. Shouldn't you be doing the same techniques for yourself...the only thing that's stopping you is the knowledge because "they" won't share these secrets with you.

I can because I'm not biased about one company or the other. I'm here to help you become a master marketer with whatever company you're with and honestly, I don't care what you're marketing...marketing is marketing!

Look at some of the silly products that have been marketed in the past. The pet rock...the hola hop...that goofy pet plant the grows hair...how about the ring that reveals your mood...honestly. Do you think any of these products could have been the big hits they were if it wasn't for the marketing geniuses behind them? Of course not, these marketers are masters at marketing. Look who's laughing now. The people that market these products understand that for ANY business to be successful you've got to know how to market... how to reach prospects...thousands or millions of them.

Having prospects is an absolute must...the more the better. You see...your business is no different. You absolutely must have a massive amount of prospects and it's just NOT possible without being an expert in your field and knowing the needs and wants of your prospect. You must know who your market is inside and out. How can you complete a transaction if you don't know the needs of your prospect? It's impossible.

Not only have I learned to master this paramount skill in the world of marketing, but here are just a few others (that I'll share later with you) that are absolutely pivotal to **TURBO CHARGE** your business...

- ▶ How to write more effective ads for your business and STOP spending marketing dollars that AREN'T helping your bottom line.
- ▶ How to have hundreds, even thousands of prospects that are wanting to speak with you...and you have NO idea of who they are because you've never communicated with them before!
- ▶ How to turn your phone into a virtual ATM machine.

- ▶ How to have your phone ring so much that you'll have to turn the ringer off before going to sleep.
- ▶ How to have your upline literally beg you to show what you're doing to grow your business like an out of control wild fire (show 'em, but charge him for giving him your secrets...most people think I'm nuts for giving million dollar secrets away).
- ▶ How to turn your business into a ***bloated cash cow*** for pennies...literally!

These are just a few...I don't want to get too long winded here and write a book, but here's the amazing part about all this...

“I Will Show You How To Access All Of These Explosive Techniques (And So MUCH More) WITHOUT Taking A Dime Out Of Your Pocket...”

I know you're thinking “Wait a second...you said something earlier about guaranteeing that I'll be earning an additional \$50,000.00 per year with any product or service I choose to market.”

You're right...and I'm glad you reminded me. Here's the deal...you absolutely have to bring **3 KEY INGREDIENTS** to the plate when you speak with me:

1. You absolutely, without doubt, **MUST have a desire to learn**. If you think that you've already got it all...you're probably right. You do and I can't help you.
2. **You MUST be coach-able**. I need to be able to help you and reprogram your brain and get rid of the nonsense that this industry has been cramming down your throat (and mine too) for years.
3. **You MUST have a big reason “WHY”**. What motivates you...what is the single most important element in your life that keeps you waking up every morning?

I'm so confident that I can show ANYONE how to make big bucks in this industry that you are GUARANTEED to be earning an additional \$50,000.00 per year with whatever you happen to be marketing as long as it's not a gifting program or pyramid scheme.

There are a few reasons that I have a few simple requirements that must be met before I can speak with someone, but the most important reason is that I work with people just like you from all over the country in helping them grow their businesses and become master marketers. There are only so many hours in a day and I have to be sure that I'm working with people that truly want help. This is certainly for YOUR benefit to be assured that I do have time to spend with people like yourself who are truly committed to this industry and themselves. The information that I possess can literally create fortunes for people...and no, not a small fortune. The knowledge that I will share with you has created MILLIONAIRES...and so can you by simply following my instruction. As a matter of fact...

“I Can Show You How To Add 20-30 People Per Week Into Your Business...Starting Tomorrow!”

I know...that's a pretty bold statement. It is no typo and it's the absolute truth. You see, I've been in this industry for a long long time and I've seen this done time and time again by people before you. I have to tell you that this is **THE MOST INCREDIBLE AND SIMPLE SYSTEM THAT HAS EVER BEEN CREATED!** This 60 minutes we spend together can absolutely change your business life and determine your level of success (or lack of) in the network marketing industry.

Have you ever imagined something like this?

You get up in the morning, have a relaxing breakfast, sip on a nice cup of coffee and turn on some old TV reruns. You realize a few minutes into the program that this isn't a rerun so you decide to watch the entire thing. About 20 minutes into the program you really start to think that maybe you should just take the day off...neah, on second thought, you need a 12-day weekend. A sort-of mini-vacation. A commercial comes on and you pick up the phone and call up your travel agent. Melissa tells you that the next plane is departing for France in 3 hours and 18 minutes. You have a love for some of the world's most breathtaking views...and it has been about 7 months since you've seen these beautiful scenes and you're itching to get back for a few days and relive the experience.

You call your spouse, who is having a late breakfast with some friends and you say you've got a little surprise you'd like to talk about. Your spouse walks through the door to see 4 full-size suitcases there and says "Honey, where are you going?" You respond by simply stating "We're taking a little vacation, pack a few essentials and let's get rolling" He/she has no idea where you're going, cause you've done these little "surprises" several times over the years so he/she doesn't ask a lot of questions. On the way out you have to do a few quick errands and swing by you mail box at the end of your driveway that leads to your estate. You open your mailbox, find a few normal items sitting there...one of them happens to be a check from your primary business. You hand it to your spouse...this gives a sense of "involvement" with your business. Not surprised or disappointed...a typical check of \$42,823.82 (they're never exactly the same, but normally within one or two thousand dollars).

You sit back for a moment and just think about your life...time with your family, cruises, constant traveling, a beautiful home and 2 vacation homes up in the mountains that you visit "when you have the time" and more "toys" than one would find at 15-20 homes combined. You realize that this is living and you're loving every moment of it...you sit back and ponder how good things are and realize the obvious...money isn't everything, but it sure makes things a bit easier.

THIS IS WHAT BUSINESS OWNERSHIP IS SUPPOSED TO BE ALL ABOUT!!!!

Everyone should be able to feel this way and this is exactly why I decided to help others learn what I have discovered. You see, the key, is shifting from focusing on the product, service or comp plan and directing that same focus and energy into **MARKETING**. If I haven't said this before (probably at least 506 times) **MARKETING** is the key to growing a business...any business! I know, without a doubt because I've done it, that **YOU** can absolutely make thousands and thousands of dollars, tens of thousands every month from home.

The amazing part is that I can show you how to make this happen without ever leaving your home and I'm here to show you exactly how to make that happen...step by step.

This leads me to the next powerful MLM secret. This secret alone will put millions in your pocket if you know how to do it.

Secret #4 - Never market your opportunity - market information.

As soon as you start selling and telling about your opportunity people tune you out and turn you off. You know that YOU don't like to be sold. Nobody does.

You'll be able to attract 9 times more people to you than just straight out selling your product. Educational marketing is one of if not the most guarded secrets in the business world. You can apply this principle to any market. Real estate to cars to network marketing educational marketing wins hands down. Here's the reason:

A Prospect That Comes To You Is Infinitely Worth More Than Someone You Have To Approach?

People love FREE educational material and I'll show you how to target the people you're looking for.

All of these secrets mean nothing if you can't implement them.

Secret #5 - Having the proper information makes the implementation process easy.

Once you have the right information. Decision making becomes easier. Your success will start when you put the secrets in this report into motion.

You see, it's a lot like a road map. You know exactly where you're going and how to get there. You have to be willing to take the journey. Are you ready to start your journey?

I know you must have a lot of questions. Skeptical thoughts might still raise their head but you owe it to yourself to take the next step. Let me take a few pages and address your concerns (it's one of the things you'll learn to do when you become a leader in this business).

SO YOU ASK..."WHY ARE YOU TEACHING AND NOT JUST DOING THESE THINGS YOURSELF?"

That is a good question. I still do these things daily...EVERY DAY. It's just too much fun making money this way to stop doing it. It's fun...a lot of fun. At this point in my life, producing money is like flicking a light switch on or off...I prefer the "on" position, but if I choose to vacation or take a break...I put the switch in the other direction.

Anyway...the reason I teach these things is two fold.

1. I know there is such a HUGE market out there and I can't get to it all and I'm not

worried about adding more competition. In fact, as you'll learn, competition is good for business.

2. I ABSOLUTELY love this industry and want to see anyone control his or her own financial destiny. Remember...this is supposed to be the, "Land of Opportunity". I enjoy helping others achieve what is possible, just as I did.

**I'LL BET YOU ARE A SOMEWHAT SKEPTICAL & CURIOUS ABOUT NOW,
(Any objective person should be...So I Don't Blame You.)**

You probably have a couple of concerns I'd like to address:

How much will I have to spend to use these strategies you teach?

That's a great question. You know, when I really started to have that "paradigm shift" and have things start kickin' in high gear, I had gone broke trying all the other methods. I didn't have a bunch of money to invest either...but one of the important things that I found was that, everything was relative. Spending big...thousands of dollars on trial and error was just as bad as doing the wrong things...especially when I didn't have the knowledge to really know what I was doing. One of the things that I'm extremely proud of is that I'm going to actually show you how to do things based on your learning curve, meaning I'm not going to tell you to spend hundreds of dollars at a time on leads or ads until you're shown how to become profitable first. That means not having you spend beyond your ability to recover quickly.

DON'T YOU WISH YOUR UPLINE WOULD HAVE BEEN ABLE TO SAY OR DO THAT?

What if I'm so broke I can barely keep the lights on?

Well, I've already touched on this one and I have good news and bad news. Bad news first; you can't start a business or learn how to grow it without any expense...**THERE IS NO F-R-E-E LUNCH.** However, the good news is, you can learn the right way, the best way and the most profitable way for a lot less than it cost me. By learning from my previous mistakes you **WILL** save thousands and thousands of dollars.

Can't I just learn these things on my own?

Absolutely! I know ANYONE can learn these things **ALL BY THEMSELVES**, you don't need me. The only downside is that you will spend a **BUNCH OF MONEY** you don't have to and you will experience a lot of **PAIN** you could avoid. Honestly, you could gain everything on your own and spend less than .50 cents in late fees at the local library. Are those techniques tried, tested and proven to work with ANY product or service that's out there to be marketed? Don't reinvent the wheel. The other thing you need to consider is the learning curve. Honestly, how long have you spent on the, "trail of trial and error" so far? How much more time are you willing to wait for IT to happen?

How long it will it take to see results?

Some of my students see results, **BIG** results, in as little as 24 hours. I've seen some students make 3 or even 4 thousand dollars in as little as 48 hours. Sometimes it may

take a couple of days, weeks and in some rare cases...months. You see the answer to that question depends on your ability to bring the **3 KEY INGREDIENTS** that I discussed earlier.

Students who **IMMEDIATELY** bring an open mind, a willingness to learn and who put out at least a part-time effort...**ABSOLUTELY** see results so fast it usually comes as quite a shock.

How do I know this will work for my network program, business, product or opportunity?

Here's the thing. It doesn't matter what you've been told by your upline or what you have learned in the past...**NETWORKING MARKETING OR ANY BUSINESS IS ABOUT MARKETING**. It is all about numbers, masses of people - consumers. You see I just teach how to put the numbers in your favor. First you need to learn how to "create the urgency to buy" so you can quit convincing and begging. This is the key to growing an organization so large that you'll have to pinch yourself to believe you're not dreaming.

Then you need to learn the game of numbers. You can have as many home parties as you want, go to as many hotel gatherings as you want and we will sit back, from home, in a t-shirt and shorts and absolutely hand you your lunch. Why? Marketing is about numbers.

If it were about "belly to belly" don't you think Microsoft would have people going door to door? You have to reach the masses, even in a networking compensation plan because 80% of your recruits will be lazy...growing mold on the top of their feet lazy!!!

Can I do these techniques from my area, I live WAY out in the country?

You can do the right things from anywhere...okay, almost. You will need basic home office stuff; phone with long distance, computer, etc. But today, technology is so advanced it almost does it for you. Look, I barely know how to turn my computer on (my wife's not much better). It's not rocket science, it is understanding human beings and the way that we work. Marketing ultimately is a big game of psychology. These marketing tips will work for ANYONE, if...you can read, write and speak...clearly.

What makes what you have learned so special?

In reality, what I have learned isn't anything special. The best answer to that question is the fact that what I have learned works, no matter what, without fail, time and time again.

Here's the point. As long as humans are still needed to create and make the actual transaction in order for commerce to take place, meaning until robots carry wallets, these techniques **WILL ALWAYS** work. Why more people aren't teaching these things in the first place is beyond me.

I've heard this same stuff before and it is exactly what has got me in this situation. How do I know this time will be different?

The first answer to this question is because it's guaranteed. In fact, if you bring the **3 KEY INGREDIENTS** you will be guaranteed any investment you make using these strategies. **WHAT? WAIT A MINUTE, HOW CAN YOU DO THAT?** Honestly, because the strategies will work...they have in the past and they will absolutely continue going forward. By the way, if you've heard

all this before, I'm assuming that at least you have never lost a nickel in this business because all the other places or things gave you your money back, right? NO.

The second answer is yes absolutely, I would give you every nickel back...wanna know why? Honestly, and please don't take this wrong, I don't **NEED OR HAVE TO HAVE** your money...I **VALUE IT** just like you do. I've been exactly where you are right now and to this day ONE dollar still means the same to me as it did when I had to search under my sofa cushions to gather up my change to make one so I could afford a meal off a dollar menu.

I hope I addressed a few, if not all of your concerns. Honestly, if a complete stranger made some of the statements that I've made throughout this report I'd be a little skeptical myself. If I told you otherwise I'd be lying to you. I have been blunt... extremely blunt up until this point and I'm not going to change that. Perhaps the best way to believe what I'm telling you is by putting a few bucks in your pocket..."What are you talking about?" you ask. Here's the thing...

"I Will Show You How To Put \$100.00 In Your Pocket Just For Spending An Hour Of Your Time With Me..."

That's right...just for taking a moment and getting back with me I will show you how I can put \$100.00 into your pocket. How's that for helping you make it happen. How many times has ANYONE ever told you a statement like that before? More importantly, how many times have you heard that before, but the person saying it absolutely, without doubt meant every single word?

You know, honestly, I absolutely love this industry and to be completely frank with you, I'm tired of all the myths, half-truths and the constant witness of watching people get hurt financially by "mislead" leaders in the network marketing industry.

If you think I shared a few "tidbits" with you here...wait 'til I get you on the phone and show you...literally, step by step how to add more reps in one day than your upline adds all month.

I hope you found this report to be helpful and insightful. I've shared with you many

P.S. Remember, I'm only going to share the 2 freebie techniques for the first 25 people who respond to reading this information. I apologize if you're number 26 or higher.

P.P.S. - If you are doing a gifting program (of any type), digital marketing systems that never benefit anyone or some crazy high-yield-investment-plan (HYIP), please don't respond looking for help. I only will help those with the highest levels of integrity.

Here is what some other students have said...

Just a quick note to let you know you're appreciated in a BIG way!... I am AMAZED at the effectiveness of the training, and what's happening regardless of the minuscule amount of time I've put into this! THIS EDUCATION IS PRICELESS...THANK YOU, THANK YOU, THANK YOU!!!

I know now for the first time that I can stand on my own two feet and reach any goal that I set. And while I know that I'm the one who has to do the needed things, I wouldn't have a clue what they are without you...Thank you isn't enough to express my gratitude.

My son "Jim" is an analytical Chemist. He heads up the Science Department at work. I persuaded Jim to take the Dream Team Closing Course. He quickly learned how to apply the science of sales to his work; and, as a result...He has increased his income by \$12,000 in less than 30 days... My son Jim simply used the principle that there's only two reasons people don't buy. He established value and benefit and closed the manager on using his equipment.

I've been involved with a few part time Network Marketing programs in the past with little or no success. I had no prior sales experience and was never trained properly by any program, until now. The Training the Dream Team provides is the biggest bang for the buck you will EVER come across. Success is a journey, not a destination and The Dream Team literally guide and escort you on that journey. Thank you! Thank you! Thank you!
